HTML5 – CSS3 (Frameworks: Foundation, Bootstrap, Bulma) – JavaScript ES6/ jQuery – Express – Node.js – React.js/React Native – MongoDB – MySQL – Sequelize – GIT – GitHub – APIs – JSON – REST – AJAX – Microsoft Office – Zoom – Slack

Projects: ==*Link to portfolio in header   <-keep this - or - make each project into a hyperlink? Or neither?==

Whale Hunter Beer Discover App, COVID Resource Center, Weather Dashboard, Random Password Generator, Notepad

Experience:

Production Manager/Head of the Barrel Program
Urban Family Brewing Company, Seattle WA   May 2018 - July 2020
- Managed the barrel aged and sour beer program. Created over twenty unique beer recipes, including *Vernal Bloom,* winning a gold medal at the 2019 Washington Brewers Festival
- Mastered the mechanics of all brewing equipment and utilized problem solving for maintenance/repairs as needed
- Played integral role in brewery expansion by helping design cellar blueprint for new location, ordering and installing equipment, ==ensuring it was operational==
- Devised and implemented system to record inventories and perform cost analysis of beers

Barrel Program Director/Specialty Brewer
Telegraph Brewing Company, Santa Barbara, CA   May 2015 - March 2018
- Designed and brewed all recipes for the barrel aged and specialty beers during my tenure
- Presented at symposiums and workshops on brewing processes, techniques, and ideology
- Coordinated with local producers on obtaining wine barrels, hops, fruits, yeast, and spices
- ==Increased wood cellar capacity by approximately 600%==
- ==Assisted with brewery acquisition and the transition of ownership to Epic Brewing Company==

Production Brewer
Ballast Point Brewing & Spirits, San Diego, CA   August 2012 - May 2015
- Brewed award-winning beer while adhering to the safety and quality standard of Ballast Point
- Refined on-the-job attention to detail by completing brew logs, noting discrepancies, and taking necessary action
- ==Brewed on the production team, allowing the growth into a billion-dollar company (buyout?)==

Education:

University of Washington, Seattle
Full Stack Coding Boot Camp – Date of completion: November 24, 2020
California Polytechnic State University, San Luis Obispo
Bachelor of Science in Biology – Date of graduation: June 9, 2012

Qualifications:
